WORK EXPERIENCE

Software Development Engineer Maveric Systems

03/2023 - Present

Pune

Achievements/Tasks

- Collaborated with cross-functional teams including developers, designers, and product managers to deliver responsive, user-friendly web applications aligned with business objectives.
- Designed and developed dynamic, reusable React components and integrated RESTful APIs to ensure seamless communication between front-end and back-end systems.
- Led the implementation of new UI features, optimized existing components for performance and scalability, and resolved user-reported issues.
- Conducted rigorous debugging using Chrome DevTools and React Developer Tools, and enhanced testing coverage with Jest and React Testing Library, resulting in a 25% reduction in UI bugs.

Associate Software Developer Tech Mahindra

03/2021 - 01/2023

Pune

Achievements/Tasks

- Gathered and analyzed client requirements to define user interface specifications and improve overall user experience.
- Estimated user stories, created detailed technical documentation, and developed dynamic, reusable React components.
- Identified and resolved UI bugs to enhance application performance and responsiveness.
- Conducted unit testing with Jest and React Testing Library to ensure high-quality standards.
- Collaborated effectively within Agile teams to drive continuous UI improvements.

CERTIFICATES

GRIND Program (04/2023 - 03/2024)

Hackthon (04/2023 - 04/2023)

EDUCATION

Bachelor's Degree

RMD Sinhgad Technical Institute Campus

06/2017 - 07/2020

Pune

SKILLS

Languages: JavaScript, HTML5, CSS3, TypeScript.

Front-end frameworks and Libraries: React.js, Redux, React Router, Tailwind CSS, React Hook Form, Bootstrap, Axios, Angular, Ajax, and jQuery.

State Management: Redux, Context API.

Testing Tools: Jest.

Version Control: Git, GitLab.

Development Tools: Visual Studio Code (VS Code), Node.js, Eclipse, Spring Tool Suite (STS), and Postman.

Database: MySQL.

Build Tools: NPM, Babel.

Others: Node.js (Back-end basics).

PROJECTS

CAP (06/2024 - Present)

CAP offers customers a secure platform with built-in templates for automated assessments and the flexibility to customize them based on their specific needs. The portal generates insights and reports from the uploaded data and provides products like Pre-Go-Live, DevOps Maturity, and SRE Maturity assessments. It also features a dashboard with multiple graphs. The project aims to deliver a scalable, secure, and user-friendly platform that helps customers assess and enhance their practices.

Spectrum (06/2023 - 04/2024)

Spectrum is a central portal designed for internal employees to connect with mentors, enabling mentees to search for mentors based on technical skills and facilitating a structured mentorship system.

Edge (03/2021 - 01/2023)

Edge provides installation and repair services for AT&T products. The CAWO (Create Amend Work Order) module helps manage appointment details for services, including reserving, confirming, and canceling orders.

ACHIEVEMENTS

Recognized as Best contribution in project .

Maveric Systems

Received "Rise Award" for exceptional performance in the Project.
